AM~FINN

DESCRIPTION

Am-Finn's Pre-Cut Custom Saunas are designed for installation into a pre-existing, framed-in room. Any room can be converted into a custom sauna with the proper preparations. We are available for help throughout the room prep and ordering process to ensure the correct sizing and choice of add-ons are selected. Just one call with our excellent customer service reps can greatly reduce the guesswork and eliminate the headaches that often go along with planning and building a sauna room.

When designing a customized pre-cut sauna, the possibilities are truly endless. We love working with homeowners to help them create a perfect, one-of-a-kind sauna that fits both their style and budget.

SIZING

Am-Finn offers a wide range of standard sizes for pre-cut saunas as well as offers custom sizing. For custom sizing simply provide your specific dimensions and we will help to create your perfect pre-cut sauna. You tell us what you want, we'll make it happen.
